

THIS SCHOOL HAS BEEN
**CLEANED &
DISINFECTED**

Jani-King
The King of Clean

**KEEP YOUR STUDENTS HEALTHY
THE SAFE WAY**

A Safer School

Trust us to ensure your classrooms are CLEAN, DISINFECTED & SAFE for students and staff

Maintaining healthy classrooms for students, teachers and staff will provide peace of mind and a safer learning environment for everyone. Make sure that you have both a cleaning and disinfecting program in place to provide the most protection. Cleaning removes dirt and soil, while disinfecting is the process of using a registered chemical to kill viruses.

It's also important to remember that disinfecting once is not enough. Viruses can be reintroduced to your business by a contaminated person. Having a regular cleaning and disinfecting schedule provides the best protection at your school.
